PROEMIAL.

In placing this, the tenth edition of the Topeka City Directory, before its patrons and the public generally for inspection, the fullest assurance is given that the most strenuous efforts have been made to make every detail both accurate and reliable. Each name is printed precisely as it was spelled by the person who gave the name, and every house in the city has been visited by an intelligent canvasser for the purpose of ascertaining the names of its inhabitants. If, therefore, you fail to find a name, do not question the accuracy of the Directory until you have searched for it under every spelling it is susceptible of; and if you still fail to find it, bear in mind that the information contained in a directory is obtained from nearly as many different persons as there are names in it, and that it is barely possible that some other than the publisher is responsible for the omission.

With this issue, as in the past, the undersigned has endeavored to give perfect satisfaction and a full remuneration for patronage bestowed, and in this connection desires to impress upon the mind of every person in the city, that they are under special obligations to each and every business and professional man whose card or advertisement appears in this volume; they are the "roll of honor," and should be recognized and preferred in all business transactions. Their money defrays the expense of this publication, and they are justly entitled to the benefits accruing therefrom, as it is well known that the old fogies, and those too penurious to aid in this or any other legitimate enterprise for the benefit of the city, will affect to enjoy its advantages at the expense of others.

Appreciating that my former efforts have won the confidence of our citizens, I shall strive to merit a continuance of their favors for future editions of this work.

Very respectfully,

Sam Radges

HISTORY OF TOPEKA.

INTRODUCTION.

Like all mortals born with a tormenting ambition, I have ever had my dream of glory; and I have earnestly sought to make it real, by every means in my power not involving the danger of getting hurt, killed or disfigured so I couldn't enjoy my glory when I got it. Spurred by this vaulting ambition,

"When war waged its wide desolation,"

I rushed madly into the turmoil, and for three long, perilous years served my country as a notary public in the great State of Ohio. Fame came not yet; and no sooner had the war ended, and peace reigned long enough to show it had come to stay, than I boldly accepted a lieutenant's commission in the Kansas militia. This, however, did not advance my aims; for no sooner had I bought my uniform and exhibited myself in martial array to my admiring family, than serious trouble arose —there was a strike all along the lines of the railroads; the sheriff, while reading the riot act from a slow, melancholy cow-catcher, was hit upon his majestic shin by a riotous brick; and as I deprecated all violence in case of a strike, when the railroad employés had all struck for higher pay and the militia had been sent for, I struck for my home and fireside, like the Scots under Bruce, and stayed there. Then I tried to get a job as a humorist; but chancing one day to hit upon an original joke not down in the scrap books, the whole fraternity of funny men arose in wrath, declaring I meant to ruin the craft, and I had to go. From that day to this I have avoided as a poison thing every thought or form of expression not already in universal use or to be found in the medical almanacs. I have tried to practice law, but lately the court at *nisi prius* has virtually barred me out because, having grown so almighty learned, the other lawyers stand no show when I am in the case, and the judge is afraid I may influence him by my more than Demosthenian eloquence. Altogether, I have had reason to feel blue over my eternal fame prospects, with even my very name as yet unknown to half the human race; and age coming on, I had despaired of ever having a biography anybody would ever read three centuries hence, and feared I should be compelled to put up with the customary *hic jacet*, which is outside Latin for the inside devout wish—"May the divil fly away wid him." But there was one man who had watched my career with a discerning eye, able to penetrate external appearances and its own spectacles, and whose possessor saw in me one of those "Miltons born to blush unseen" because nobody can be induced to look at their blushes. So one morning last winter, when the sun shone resplendent in the heavens, and with its refulgence made the ice, whereon the citizen walked, gyrated and sat him down, to glitter like hotel glassware, Mr. Radges flung upon an astonished world and the show cases of advertisers, the glad tidings, in a handsome sheet, that "versatile and brilliant" I had consented to write the nonsense end of his Directory. My fame is now assured; and I have but to introduce this interesting, though somewhat asthmatic, compilation, and reach forth in confidence to receive my crown of glory from a grateful public, and a box of tenement-

house-imported cigars from the hands of my discerning patron. Perhaps I ought not to have mentioned these bits of purely personal history; but I felt constrained to do so for the encouragement of other youth struggling against difficulties to make way to the stars.

Lives of great men all remind us we can make our lives sublime, and this lesson will not, I hope, be lost. To be sure, not all can hope to attain to my dizzy altitude, for this Directory being at present published only once a year, it is not likely that many thousands can serve upon its literary staff; but let all aim high, and much may be achieved. In these days of Pears' Soap, Oats Essence and Sapolio, who shall say there is no opening for a lucrative and brilliant literary career? But to my subject:

Heretofore, the Hon. Joseph G. Waters has been accustomed to indite the introductions to this thrilling continued story, and I do not hesitate to say he should long since have been indicted himself for his utter disregard of propriety and truth. In a solemn work like this, jokes are out of place; and what is there in it that should render an occasional bit of truth distasteful? Yet I have seen people enjoy what Waters wrote. They shall have no chance to thus desecrate my laborious work; for I am no liar as Waters is. I am foolish enough to believe that truth is, in this age and in this town, stranger than any real-estate advertisement. I am, I confess, about the funniest man that ever made a whole community shed its buttons to get room to laugh, but I conceive fun to be out of place in a document of this sort. Whether they like it or not, therefore, my readers must expect from me nothing but actual facts. I shall not abandon truth to puff the town, nor make people laugh to get them to believe what I write. To the end that I might depart from custom, and make my facts reliable, I have been at great pains to insert nothing here for which I could not personally vouch, and every fact here inserted has been either investigated or made by myself.

I wish to be logical in this thing; and logic requires that I shall proceed with order, and do with my subject as does the parson with his text—take it to pieces, and do it up a word at a time. My subject is, "Radges' Annual Directory of the City of Topeka," and, proceeding after the manner of Parsons, I shall divide my discourse into the following heads:

1st. "Radges' Annual Directory of the City of *Topeka.*"
2d. "Radges' Annual Directory of *the City* of Topeka."
3d. "*Radges' Annual Directory* of the City of Topeka."

TOPEKA.

The Kaw Indians, who were here when the town was named, said "Topeka" was one of their words, and meant "a good place to come for your artichokes;" and a common man might be excused for supposing that, as it was an Indian word, the Indians ought to be allowed to say what should be done with it. But the wise men of the world, who cannot explain even a combination of white dress, pink ribbons and a Derby hat, with light trousers festooned on the back of low-cut shoes, hanging on a gate, of an evening in June, without going into an observatory and making sundry mathematical calculations, were not satisfied with the definition furnished by a tribe of savages, and have

sought earnestly for a hidden meaning. Many guesses have been made; but I am convinced that Prof. Max Muller's theory is correct; that "Topeka" is an Aryan word, standing for a phrase, as is common in that language, and means "the only place where a civilized man, being free to live where he will, would voluntarily take up his abode for life." According to this great investigator, there was, centuries ago, a prophecy current in Arabia, that, in some aftertime, such a city bearing this name, and more beautiful and rich than any which even the oriental imagination had ever pictured, would exist in a far-off western world; and it was this prophecy which Plato mistook for past history and wove into his story of Atlantis. Such is the scientific understanding of the word "Topeka," and it is currently believed in this city. I might have given some fanciful definition, as Waters has always done, but I prefer to stick to the simple, prosaic facts.

THE CITY OF TOPEKA.

The town of Topeka was laid out in 1854; and the city of Topeka has since laid out every rival town in the State. For four years the town had no government—no laws. Not that it could not have had both had it so desired; for the slavery Territorial Legislature had government and laws to spare, and insisted, almost to the point of ill-breeding, upon supplying the new town; but the people were resolved not to be under obligations to their neighbors, and contrived to get along without the proffered luxuries. In 1858, however, the city got a charter, and since then, though the city has grown wonderfully in all other directions, nothing has grown so fast as its government. Thirty years ago it had no government at all, and now it has more than any two kingdoms of Europe, or any female academy on this continent.

This city is the capital of the State; but it is not merely the capital—it is the commercial metropolis as well. Some people with number six heads talk of removing the capital to some lithograph town that has nothing to live on, and needs the wages of the State-House "help;" but that will never be. And be it known, we do not depend upon the State House for a living. We have plenty of banks, either one of which can pay out for office furniture and stationery more money than the State treasury has in it, and not notice it in paying dividends. Topeka is a railroad, commercial and manufacturing city; and the disbursements of its railroad employés alone amount to more every month than all the legislative appropriations for a whole year,

and more than any other town in the State ever sees in twelve months of flush times. Do you suppose we could pave our streets till they look like the most beautiful parts of Paris, if we had to live off the State officers, clerks and janitors? We have water works and street railroads it would make the State treasury fast ten years to build. We even get away with the State House on legislation, and have some city ordinances no Legislature could be hired to pass without the encouraging presence of the regular army. You just wait and see. If ever Gabriel does come to this place to annoy our busy population, break up real-estate deals, and disturb the contractors of the State House or the engineer of the coal hole, the police judge will have him on the rock pile for disturbing the peace, and confiscate his trumpet as a concealed weapon, before he has had a chance to get his bearings.

The State House has been trying for years to close up the saloons, while we closed ours so long ago we have forgotten what a saloon looks like. To be sure, the police run in a man now and then for being drunk, but this is usually on Saturdays, and always one of the same men on the same drunk; and he could have been run in any other day just as well, only the police judge lets it go till Saturday so as to make a good showing at the end of the week. We have a jail of such architectural beauty, and so well kept, that it takes the combined police force to turn a prisoner out when his time is up, and people make all sorts of excuses to get in. Men confined there have declared they preferred it to the penitentiary, though that is a State institution. We have a school house in every block—not otherwise occupied—and so many colleges that their professors alone would make a town larger than either of those clamoring for the State capital. The city of Topeka, as defined by its corporate limits, is four miles long and three miles wide, while the real Topeka is not less than eight miles in either direction. The Rapid Transit, the Cable, and the Street and Circle railways are reaching out to the country towns, and the people are building homes and starting groceries all along the new lines; so that it is no exaggerated prophecy, that in five years the intervening country will be so completely settled up that all these country towns will be as much parts of the city as North Topeka is now. We shall then have a city extending twenty-nine miles—from Grantville to Silver Lake—one way, and twenty-five or thirty miles—from Meriden to Auburn, or thereabouts—the other way, and the county boundaries must be enlarged to make room for the county seat. Laugh at this if you want to. Who cares? But

figure it out for yourself. Build a rapid transit from North Topeka to Silver Lake—won't settlements spring up all the way? Won't these grow closer and closer together, till there will be one continuous street from North Topeka to Silver Lake? You can see this actually going on wherever lines have been built. Well, won't the rapid transits run to Grantville, to Meriden, to Auburn, to Dover, to Alma, to Manhattan, to Leavenworth, and all the other surrounding country towns? and won't the town grow the same way all along all these lines? Topeka has a future you have never dreamed of, and it will lose you good money if you forget it. Have we not Chicago Heights already on the market, (and in the courts,) twelve miles to the north? Please keep your grins of incredulity to yourself, and adjust your disarranged vest. This is no folly.

Topeka is no mere bread-and-butter emporium. We *live* here. We didn't come here merely to do business. We can read and write, as well as cipher, and can read books as well as keep them. The city is full of the very best private libraries, and few are the homes that have no standard books, while our large public libraries—State, city, college and public school—are in constant and intelligent use by all classes of people. Look at our book stores, and see what kind of books it pays them to keep in stock. There are no such stocks west of St. Louis elsewhere. And the prosperity of our citizens is shown by the fact that our book stores never sell a book without getting the cash at the time. Every one of them has told me so; and in such a way I know it is true. Yet they sell enormous quantities of books. We take to art, too, and have a profusion of studios and art schools, and, besides, fine collections in people's homes. The State Art Association has a magnificent selection of sculpture and fine copies of the masters. Even our house and sign painters carry palettes and embellished boxes instead of vulgar, dripping buckets as of yore. And we dress: look at the people on our streets and at operas or at church, and see the dress goods, the millinery and the hand-me-down please-press-the-creases-out masculine garments displayed in the show windows. We have electric lights and infinite gas, electric power for machinery, telegraph, telephones, district telegraph, fire alarms, transportation companies, advanced fire-department apparatus, and such direct and speedy communication with everywhere that the whole world is laid under contribution for our comfort, and northern ice meets tropic fruits at our very doors, so that living is more commodious here than in Boston or New York. Five daily papers, with another coming, furnish us the

world's news at breakfast and at supper, and often give us the news before it has happened. We have twelve flour mills, with a capacity of three thousand barrels a day, and thirty-five churches, with a saving capacity of a whole population of souls every week, although, were immigration to cease, there would be nothing for them to do. We have Anarchists who are capitalists, and conservatives who are day laborers. We have the hottest hot weather, the coldest cold weather, the wettest wet weather, the dryest dry weather and the loveliest lovely weather, all the year 'round, to be found anywhere on earth, not even Italy excepted. Our politicians are the cutest, our lawyers and doctors the surest, our preachers and teachers the ablest, our women the handsomest, our babies the most numerous and the healthiest and prettiest, our councilmen the richest, our taxes the lowest, our people the happiest, our courts the speediest, and our police the most suspicious of any city in ancient or in modern times.

Radges' Directory is a directory of *the city*—of the people who still live, and live *here*. It has not included the cemeteries, the hotel registers, nor the rosters of the county schools. You can take every name in this book, and go find some actual resident to call by it. And it is a *directory*—not a cheap advertising scheme.

It is an *annual* directory. Once it was but biennial, but that will not do now; indeed, it is doubtful whether our people will long put up with even an annual directory. Some already talk of a monthly publication, with a daily supplement, while the city is getting its growth. And finally, it is *Radges'* Directory; and everybody at all familiar with such things will swear, if need be, that Radges is the only man who has ever made a real, honest, find-what-you-are-looking-for city directory.

I have now gone over my whole subject, and here is the book. I might have said much more, had I imitated my predecessors and talked extravagance; but I have preferred to confine myself rigidly to a simple narration of plain facts, omitting many of even these, lest they appear too extravagant for belief to any but citizens. I have done my duty, and have, I hope, set an example of veracity to be followed by all who may come after me; and as the copy boy has come after me already, I must, though with reluctance, let loose and conclude. There is no necessity for a peroration, and I can't find one any how. Let's quit.

STREET AND AVENUE GUIDE.

[COPYRIGHT, 1888, BY SAM. RADGES.]

The houses throughout the city are numbered in accordance with what is known as the Philadelphia or decimal system, the base or dividing line for streets running north and south being Kansas avenue, the principal business thoroughfare, and First avenue for all streets running east and west.

Under this system, one hundred numbers are set apart for the houses between every two streets in the city—except Huntoon and King streets, which run parallel with the numerically-named streets. Commencing at First avenue with 100, numbers increase, with the odd figures on the west side, to 135, where Second street is reached; here 200 commences, and so on, increasing one hundred to the block, to the city limits. North of First avenue the numbers also commence at 100; at Crane street, 200, and on the north bank of the Kansas river at 500, allowing the intervening two hundred for the bend in the river in the eastern portion of the city, where there are streets north of Crane street, south of the river. At Kansas avenue, all streets running at right angles with it are divided east and west, the even numbers being on the north side of the streets. Commencing at 100 on the first twenty-five feet of ground fronting south, regardless as to the frontage of the building located thereon, the numbers increase two for each twenty-five feet of space in the block, 122 being reached at the intersection of the next street. Two hundred then commences on the opposite corner, and increases in like manner for the next block, and so on, increasing one hundred for each block, Topeka avenue being reached at 500 on the west, and the same number on the east side of the city, at Jefferson street.

The simplicity of this system enables every person to readily locate any address, and it at the same time furnishes an idea of the distance to the locality. If the desired number is 320, on any street running east or west, it is on the third block from Kansas avenue; No. 720, on the seventh block, and so on; the hundreds designating the num- of streets distant from Kansas avenue, and the tens and units the t house in the block.

POPULATION OF TOPEKA.

The evidences of the rapid growth and development of the city are given in a concise and comparative statement on this page, the figures given being the result of a direct count, and a careful comparison of this Directory with those immediately preceding it, and are therefore wholly reliable. In 1877, the population was 8,491; in 1878, 9,018; in 1879, 11,204; in 1880, 15,527 (U. S. census); increasing in 1881 to 16,280. The census of 1882 showed 21,562, and in 1883, 22,625. In the spring of 1884 the city was credited with 22,636, and in 1885 with 23,435; the following year over five thousand were gained, and in 1887 a direct census showed over 38,000. On the first of May, 1888, the population of the city, *including* its additions, is in round figures 46,000. Based upon an actual and accurate canvass of the city during the month of April, 1887, the population was 30,000 within the ward boundaries, as follows:

	1886.	*1887.*	*Increase.*
First Ward	4,964	6,228	1,264
Second Ward	8,716	10,723	2,007
Third Ward	4,685	6,127	1,442
Fourth Ward	6,623	7,429	806
Total	24,988	30,507	5,519

Within the city school districts, 35,516; including the additions to the city, 38,741.

COMPARATIVE STATEMENT.

The following statement gives the number of names in the Directory, beginning with A, B, C, D, and so on through the alphabet. The statement compares the year 1888 with 1887 and 1885, and shows the increase of names this year over last:

Total	7,466	10,778	12,897	2,153	34

The population obtained by the direct census of 1887 and the number of names in the alphabetical directory approximate about *three and one-half* to the name—10,778 names representing 38,741 people; and adopting the same basis for the *additional* 2,119 names in the present work, over 7,500 inhabitants are added, making the total population of the city and its suburbs 46,000.

The Merrill Mineral Spring.

A WONDERFUL WATER.

This Natural, Flowing Spring is located fourteen miles due south of Topeka, one mile north of Carbondale, Kansas, on the Great Santa Fe R. R.

These waters are not equaled for the treatment and cure of Bright's Disease, Diabetes, and all diseases of Kidneys and Bladder, Dropsy, Rheumatism, Paralysis, Indigestion, Dyspepsia, Piles, Ulcers, Open Sores, Sore Eyes, and all Skin Diseases, Nervous and Female Diseases, Blood Poisoning and Scrofula in all its forms, Liver Complaint and Chronic Diseases.

What it has done for persons who have used it.

READ THE FACTS.

From Attorney General Bradford.

STATE OF KANSAS,
OFFICE OF ATTORNEY GENERAL,
TOPEKA, March 29, 1888.

M. D. MERRILL, ESQ., Carbondale, Kas.:

Since my spell of sickness last fall I have been using water from your spring. My trouble was an affection of the kidneys and bladder, commonly called gravel. I have used the water both hot and cold, and I know I have been benefited thereby. For a mild cathartic it is best to use the water hot. I am confident that for kidney troubles the water from your spring is unequaled by anything in this western country. It is a sure cure for constipation, hence a great benefit to business and professional men of sedentary habits. I have no hesitation in recommending it to people affected in that way, as I have been benefited myself.

S. B. BRADFORD, *Attorney General.*

Testimonial.

From the Carbondale Carbondalian.

The following testimonial as to the good results from using Merrill's Spring Water is from the associate editor of the Topeka *Daily Capital*, and a man perfectly reliable and trustworthy in everything he says:

TOPEKA, Feb. 23, 1888.

MERRILL MINERAL SPRINGS COMPANY:

GENTS—I have used the water from the Merrill Mineral Spring near Carbondale for the past two months, and have derived great benefit therefrom. My trouble was liver and kidney affection, as well as indigestion. I feel free from all these ailments. The effects from the use of this water have been wonderful. I do not believe it has an equal on the continent. Business and professional men of sedentary habits, who are troubled with malaria in any form, will find the Merrill Mineral Spring Water nature's sure and safe remedy. It is simply invaluable. Respectfully,

D. O. MCCRAY.

A well-known citizen of Topeka speaks.

Mr. Reck is a merchant, corner Tenth and Monroe.

TOPEKA, KAS., March 15, 1888.

M. D. MERRILL:

SIR—For more than eight years previous to one year ago, no man ever lived and suffered more than I did from kidney disease, liver trouble and indigestion. I could not eat anything without its distressing me greatly. I was terribly constipated, and my suffering was so dreadful that many a time I had rather die than live. Besides these troubles, I had rheumatism so bad that many nights I could not sleep, and often sat up all night with my back close to a hot stove to keep up circulation. I spent hundreds of dollars seeking a cure, even going to Ohio for that purpose, but got no relief. I talked with my wife, and had prepared my business for any fate that might come. A year ago I began using water from your spring, fourteen miles south of Topeka, known here as the Merrill Mineral Spring, and in a short time it relieved me completely, and now I am a well man again. I am recommending the Merrill Spring to all my friends, as the best remedy I ever knew.

J. S. RECK.

TOPEKA, KAS., April 17, 1888.

M. D. MERRILL, ESQ.:

DEAR SIR—Twenty-four years ago, when I was nine years old, I was bedfast for nine months, from a sickness that poisoned my blood, and up to a year ago my health never was good. About five years ago three running sores broke out on my left leg, which my doctors called indolent ulcers. This leg was injured three years since by the falling of a horse I was riding. Eleven ulcers resulted from the injury, eight reaching to the bone, and all running and painful. I had to quit work, and felt that my life was at stake. After hearing of a great many wonderful cures from the Merrill Mineral Spring, one year ago I commenced using the water, and found my health began to improve immediately. Soon pain left. I gained strength, and in a short time my ulcers, some of which were as large as a silver dollar and running offensive matter constantly, all healed up, and ever since I have been and am now a well man, able to do hard work without any trouble. Hundreds of persons in Shawnee and Osage counties, where I have lived since I was five years old, know this statement of mine is true. There is no mistake about the astonishing cures the Merrill Spring is doing.

Respectfully, BURTON W. VAIL,
409 Lawrence street, Topeka, Kas.

CITY RAILWAYS.

Topeka Street Railway Company has been in operation for several years. Its lines run from Garfield Park, the extreme northern part of the city, to Washburn College, a distance of nearly five miles, and branches diverge at Sixth avenue, to South Topeka, Parkdale, Tenth and Sixth avenues west, and the Santa Fé depot.

Topeka Rapid Transit Company. This road is rapidly coming into public favor, and is conducted by a broad-guaged and liberal management. Its capital stock is a quarter of a million dollars, and its equipments are first class in every particular. Its road bed extends to the extreme limits of the city, over which trains are run regularly and promptly.

West-Side Circle Railway Co., incorporated in 1887, with a capital of $100,000. This road extends its line five miles west of the city, and contemplates covering a still larger scope of territory at an early day. Numerous trains of latest-improved coaches and motors convey passengers over this popular road at short intervals every day.

East-Side Circle Railway. The charter, right-of-way and ordinance have been secured in favor of this road, which is to extend in a southerly and easterly direction from the city. Its destination at present will be Highland Park addition, where lots are sold conditional to the building and operating of this road at an early date.

North Topeka, Silver Lake and Rossville Rapid Transit. Bonds have been voted and right-of-way secured for the building of this road, to connect several towns west, on the line of the Union Pacific Railway, with this city. The projectors are live, active, enterprising business men, who are deserving of liberal encouragement.

CLUBS AND ASSOCIATIONS.

Bar Association of Topeka. Significant as the name may appear to the non-initiated, this organization, as a body, does not set at defiance the prohibitory law of the State, but, individually, nearly every member would accept a —— retainer from some luckless individual who has been innocently(?) suspected of misconstruing the law. The association consists of over a hundred practicing attorneys, is of a social character, and has for its object all matters calculated to benefit the legal profession; meets at the call of the president.

Benevolent Societies and institutions are numerously scattered throughout the city, and are generally connected with church organizations and secret order societies. They will be found under appropriate headings in the following pages of this work.

Board of Trade. Incorporated in 1886, under the laws of the State, but organized in 1880, for the purpose of encouraging commerce and manufacturing interests, and for procuring such laws and regulations as may be deemed necessary for the benefit of trade and the interests of the city. With a membership of over two hundred representative citizens, the board has been the means of developing manufacturing interests of vital importance. It is an active body, always alert to liberally aid all propositions that bid fair to enhance present values and the future prosperity of the city. Weekly meetings of the board are held in the spacious rooms in the Stormont building, 109 West Sixth avenue. The present officers are: P. G. Noel, president; George W. Watson, vice president; P. I. Bonebrake, treasurer; T. P. Rodgers, secretary.

Shawnee Building and Loan Association. Organized in 1885. Meets monthly, at the office of Strickler, Daniels & Pounds, 515 Kansas avenue. The officers for 1887–8 are: H. V. Hinckley, president; S. S. Ott, vice president; J. H. Belcher, secretary; C. J. Kendall, treasurer.

Kansas State Fair Association. Incorporated in November, 1879. It has for its object the promotion of the agricultural and stock interests of Kansas and the holding of annual fairs in this city. The fair grounds of the county have been improved by the association, and thousands of dollars have been expended in exhibit and other buildings, amphitheaters, stalls, and the excellent half-mile track, which is conceded to be one of the best in the country. The fair of 1888 is destined to be the greatest exhibit ever shown in the State, and active work is already being done by the secretary to carry out the mammoth arrangements planned out. E. G. Moon, secretary.

Pioneer Club. The pre-historic emigrants who settled here just after the flood luxuriate in a mutual-admiration society bearing the above name. Topeka's early history has been handed down to future generations in a work of several hundred pages, from the pen of its illustrious president, Hon. Fry W. Giles. The society holds an annual meeting, with banquet attachments, on the 5th day of December, to commemorate the location of the city, in 1854.

Cherrah Kedisha Bicor Cholen. The derivation and interpretation of the above title is not liable to enlighten the uninitiated. The meetings are held in the hall of the society on Seventh street, and its membership is confined to members of the Hebrew faith. It was established in 1871, and is religious and social in its character and operations.

Topeka Driving Park Association. The dudes, and other pretty people who sport fast trotters, have organized under the above name, and intend showing themselves and their fast stock every evening during the driving season on the bully-yard (boulevard in French) and asphalt pavements of the city.

Topeka Humane Society, for the prevention of cruelty to animals and children, was duly organized on the coldest day during the winter of 1887, in the Grand Opera House, where the greatest cruelty was imposed on the audience by the slow-freezing process it was compelled to undergo, owing to the failure of the engineer to "fire up" the house. Nothing has since been heard of this humane society, although there is still a supply of animals, cruelty and children in our midst.

Modoc Club. The whoop of the famous Modocs has resounded to the slope of the Pacific coast, not in the war cry of their aboriginal namesakes, but in the sweet refrain of classical music, rendered by near half a hundred highly trained and cultured voices. Major Tom. J. Anderson and his tribe of popular warblers of melody are truly famous, and are quoted by the St. Ananias Club as being unsurpassed by any musi-vocal organization in fifty-three States, counting Dakota as only one. The club occupy spacious apartments over 706 Kansas avenue, where rehearsals are held weekly.

Avon Club. Organized in 1870. The members of this club are devoted to the study of Shakespearian and other standard literature for their own improvement, and the edification of their friends. It is composed of a number of classic scholars, who enjoy an annual banquet on the anniversary of their patron bard, in addition to the regular literary feasts held at the homes of its members every week.

St. Cecilia Quartette is composed of young ladies of brilliant musical attainments, both vocal and instrumental. Their public rehearsals are classed among the musical events of the season, and are liberally supported.

Occidental Club. Organized in 1884. It is devoted to the study of history pertaining to ancient and modern art. The society meets

fortnightly at the residence of one of its members. Its membership is limited to twenty. The officers are, Mrs. J. K. Hudson, president, Miss Lucy Kingman, secretary.

Press Club. "Poverty is no disgrace, but it's mighty inconvenient." The gang, for various reasons, the principal of which, however, being the lack of lucre, broke up their elegantly-fitted up headquarters where they were wont to entertain themselves and visiting newspaper men with exchanges and verbal lies. The club now meets semi-occasionally at such places as the charitable are disposed to give them shelter, and their good work enlightens the world in every issue of the combined publications emanating from their fertile brains. The officers are, Harry Frost, president; A. G. Stacey, vice president; O. K. Swayze, secretary, and C. C. Baker, treasurer.

St. Ananias Club. This club has passed through its second year of formally organized life, though for half a score of years it had existed and thrived without the legal sanction of State or municipality. It is a prime favorite with the churches, because the moral and religious character of its members makes it a missionary of no mean power; and with the world it is equally a favorite, because their mental and intellectual qualities make the club intercourse of members education in the highest sense. The growth of the city and its credit and standing abroad are largely due to it. Fidelity to its name and traditions has made the St. Ananias Club invaluable to all classes; and as "boomers," they outstrip the most elastic capacities and consciences of even real estate agents. As gentlemen and scholars; as synonyms of push, pluck and piety; as energetic rustlers; as wide-awake pathfinders for enterprise; as society men who are not superficial, and as courtiers, politicians and diplomats in whom is no guile, they are unapproachable and inimitable. They are held up by wives and mothers as models, and by America to the rest of the universe as the type and representatives of all that is admirable and enviable in this great Yankee nation. Four hundred and seventy-five evenings out of the year they may be seen wending their individual ways to "The Den" of consultation, and the shades of night find the devout there, rain, shine or blizzard to the contrary notwithstanding.

Turnverein. Organized February 10th, 1867. This society has largely increased its membership during the last two years, and owns a valuable grove and hall on First avenue and Harrison street, where regular meetings of the society are held on the first and third Tuesday evenings in each month.

Marshall's Military Band was organized as a campaign band for the presidential campaign of 1884 as the First Ward Republican Flambeau Band, and on November 12, 1884, was chartered as Marshall's Military Band of Topeka. The number of members at that date was about a dozen, but has rapidly increased, until now the band numbers forty musicians. It is known throughout the West, and has been awarded the honor of standing ahead of all amateur bands in America. The band is finely equipped with a full set of Besson instruments and the richest uniform ever worn by a band in this country. Following are the officers: President, Geo. M. Lescher; Director, J. B. Marshall; Secretary, F. C. Lacey; Treasurer, A. W. Lacey; Manager, O. K. Swayze. The entire upper floor of 822 N. Kansas avenue is occupied by the band as headquarters, the rooms being handsomely fitted up.

EDUCATIONAL—COLLEGES AND PUBLIC SCHOOLS.

Washburn College. As early as 1858 steps were taken to establish a Christian college, under the auspices of the Congregational churches of Kansas. The institution was first styled "The Topeka Institute." A site was secured in 1860, consisting of the present campus of forty acres, and 120 acres adjoining. With one of the finest locations in the State, and with a material basis of over $110,000, Washburn College has an assured future before it, as one of the prominent literary institutions of our State and Nation. It is accessible by street cars from the city and depots, which run regularly at short intervals to the grounds. Young men having the ministry in view, if in need, are aided by the American College and Education Society to the amount, usually, of $100 a year. This aid is not available until one enters the collegiate course, and may be received as a gratuity, or as a loan payable after the recipient is settled in the work of the ministry. Should the recipient not enter the ministry, the money so received is to be refunded. Other information regarding this college may be obtained by addressing Rev. Peter McVicar, president, at Topeka, Kas.

College of the Sisters of Bethany. The College of the Sisters of Bethany is situated on a beautiful square of twenty acres, lying between Eighth and Tenth avenues and Polk street and Western avenue. Its history is contemporaneous with that of the State, it having originally been chartered by the Territorial Legislature as the Topeka Female Seminary, and afterwards by the State under its present name. It is under the charge of the Protestant Episcopal Church, the venerable Bishop Vail being president of the institution. Under his fostering care, it has risen from a small beginning to be the peer of any school of its kind in the country. It is the only strictly girls' school in the State of Kansas, and as such deserves the patronage of all who believe in a girls' school as the best place for the education of girls. The course of instruction in the literary department embraces a thorough preparatory and collegiate course. The music department is the largest in the West, having about 200 music pupils. Twenty-four pianos are used, and a complete and systematic course is followed in both vocal and instrumental music. The department employs eight teachers. The art department is fully equipped with casts, models and copies, and is fully prepared to give a complete course of training in all branches of drawing and painting. The elocution department is under the charge of a competent instructor. Additional facilities and improvements are contemplated the coming year, which will make it the most complete and best arranged for its purpose of any school in the West.

Private Schools and Colleges. Among the private educational institutions are Pond's Commercial College, Topeka Business College, Turner's Short-hand School, Kindergarten School, Industrial School; also art, science, elocution, music and dancing schools. All of these schools are first-class in their special departments, and are presided over by experienced educators.

Public Schools. The educational advantages that this city affords have been and still are one of the factors of its marked prosperity. Since the earliest history of the city particular interest has been manifested in the development of institutions of learning, and liberal allowances have been made to increase their facilities.

The first school house in Topeka was built in 1857, on the southwest corner of Fifth and Harrison streets. It was an unpretentious brick building, that served its purpose well for a number of years. Engravings of some of the magnificent school edifices that have been erected to supply the growing demand of our prosperous city will be found elsewhere in this work. this city is the most complete that both experience and talent have been able to provide. It extends over a period of eleven years, divided into three divisions, each complete in itself; the primary course extending over a period of four years, the grammar division over three years, and the high-school department over four years. A superintendent and 77 teachers are employed, in seventeen school houses, in which over 3,500 scholars are in daily attendance. The corps of instructors are an able and efficient body of educators, with strong intellectualities, which lends its impress upon the plastic, tender minds of the scholars committed to their charge.

FIRE DEPARTMENT.

The fire department of this city is practically composed of the same men who were members thereof last year. Under the administration of Chief Geo. O. Wilmarth, they have proven themselves to be a very efficient and hard-working body of men, and the working of the department far superior to that of any city of equal population and extent. The following detail of the department is furnished by Chief Wilmarth:

the greatest railroad corporation in the world. Over 7,000 miles of road are owned by this system, extending from the lakes to the Pacific ocean and the Gulf of Mexico. The general offices of this mammoth corporation are located here, (Topeka,) employing nearly 500 officers, clerks, accountants and engineers, as are also their general machine shops and locomotive works, employing upwards of 2,000 skilled mechanics and artisans.

CHICAGO, KANSAS & NEBRASKA RAILROAD.

(Rock Island Route.)

Like an immense hand stretching over the entire State, with the wrist resting upon the bank of the Missouri river, this road has invaded an extent of territory not generally realized. Its iron fingers stretching in varied directions, it is reaching westward with marvelous rapidity. The general offices of this gigantic corporation are also established in this city, occupying an elegant new office and depot building erected for their special use.

UNION PACIFIC RAILWAY.

(Kansas Division.)

This is the pioneer road in Kansas, and was at one time an important factor in the growth and prosperity of Topeka; but of late years its importance has dwindled down to a "whistling station," so far as its accommodations to this city are concerned.

MISSOURI PACIFIC RAILWAY.

Topeka's connection with the Gould system gives it another important railroad feeder, which is rapidly gaining in public favor, and is destined to become one of the popular roads in the Sunflower State.

STATE GOVERNMENT OF KANSAS.

The Territory of Kansas remained unorganized and almost unpeopled until the 30th of May, 1854, when President Pierce signed the famous Kansas-Nebraska bill, organizing the Territories of Kansas and Nebraska. In July, 1859, the Constitutional Convention met in Wyandotte, and on the 29th of July signed the "Wyandotte Constitution." This was ratified by the people in October of the same year, but it was not, however, until January 29, 1861, that President Buchanan signed the act of Congress admitting Kansas under the Wyandotte Constitution, and then her existence as a State legally began.

The State of Kansas includes an area of 80,000 square miles, or 52,042,520 acres, and is larger than the whole of the New England

COUNTIES OF KANSAS.

ORIGIN OF THEIR NAMES AND THE DATE OF THEIR ORGANIZATION.

Allen. Organized in 1855. County seat, Iola. Named in honor of Wm. Allen, of Ohio, who was for many years a member of the United States Senate from that commonwealth, and also its Governor. He favored the doctrine of popular sovereignty, on the opening of the Territory of Kansas to settlement, and the most *ultra* measures for the perpetuation of slavery.

DON'T FORGET OUR LOCATION, IN THE OFFICE BLOCK. RODGERS & STRANAHAN.

Geo. W. Watson Is too well known to require reference given as to his reliability. **Office, 601 Kansas Avenue.**

Anderson. Organized in 1855. County seat, Garnett. Received its name from Jos. C. Anderson, of Missouri, who was a member of the first Kansas Territorial Legislature, and Speaker *pro tem.* of the House of Representatives. He figured in the "Wakarusa war" in December, 1855, and his name appears in connection with a proposition to march under the "black flag" to Lawrence.

Atchison. Organized in 1855. County seat, Atchison. Named for David R. Atchison, a Senator from Missouri, and President of the United States Senate at the date of the passage of the act for the organization of the Territory of Kansas. He was a zealous partisan leader in the discussions and movements affecting the interests of slavery and its attempted establishment in the new State to be created. He was conspicuous among the mob at the sacking of Lawrence, on the 21st of May, 1856.

Barber. Organized in 1873. County seat, Medicine Lodge. In honor of Thomas W. Barber, a Free-State settler of Douglas county, who was killed in consequence of the political troubles, near Lawrence, December 6, 1855.

Barton. Organized in 1872. County seat, Great Bend. In honor of Miss Clara Barton, of Massachusetts, who won great distinction during the war for the Union by her remarkably effective philanthropic career in the sanitary department of the army.

Bourbon. Organized in 1855. County seat, Fort Scott. Received its name from Bourbon county, Kentucky, the latter having been one of the nine counties organized in 1785, by the Virginia Legislature, before Kentucky became an independent State. It was so called as a compliment to the Bourbon dynasty of France, a prince of that family, then upon the throne, having rendered the American colonies important aid, in men and money, in their great struggle for independence. The legend, however, of the Kansas Legislature is, that Col. Samuel Williams, a member of the House from Fort Scott, insisted that at least so much was due to the name of the beverage which the party in power drew so largely from for its courage and zeal in pushing its measures in Kansas. He was a colonel in the rebel army, and died at his old home, Fort Scott.

Brown. Organized in 1855. County seat, Hiawatha. After Albert G. Browne, of Mississippi, who had been Senator and Member of the House of Representatives from that State, was United States Senator at the date of the act organizing Kansas Territory, was reëlected for six years in 1859, but withdrew with Jefferson Davis on the attempted

secession of the Southern States. The name is properly spelled with an *e* in the original statute, but on the county seal was left off—accidentally, probably. All later statutes present the name without the final *e*.

Butler. Organized in 1855. County seat, Eldorado. For Andrew P. Butler, who was twelve years a United States Senator from South Carolina, from 1857 to 1869. He was a bitter partisan, and a zealous advocate of the right of the South to introduce slavery into the Territory of Kansas.

Chase. Organized in 1859. County seat, Cottonwood Falls. Created out of portions of Wise and Butler counties, and named in honor of Salmon P. Chase, successively Governor of Ohio, United States Senator, Secretary of the Treasury, and Chief Justice of the Supreme Court. He was earnest in his opposition, when Senator, to the extension of slavery into Kansas.

Chautauqua. Organized in 1875. County seat, Sedan. Created out of a portion of what was first Godfrey county, named after "Bill Godfrey," a noted trader among the Osages; then Howard county, in honor of Major General O. O. Howard, for his efforts in behalf of the colored race. Chautauqua county, New York, was the former home of Hon. Edward Jacquins, who was a member of the Kansas Legislature in 1875 from Howard county, who introduced the bill which divided Howard into Chautauqua and Elk; hence from his native place this county derives its name. Godfrey county was changed to Seward in 1861.

Cherokee. Organized in 1866. County seat, Columbus. First named McGee in 1855, for E. McGee, who was a member of the Territorial Legislature, and held to the doctrine that the term "inhabitant," as employed in the organic act creating the Territory of Kansas, was meant to designate any person who might reside in, or have an existence in, or happened to be in on election day, or during the sitting of a Legislature. So he voted in Kansas, helped to make laws for Kansas, but never lived in Kansas, always persistently adhering to his citizenship of Missouri. In 1866 the name Cherokee was adopted, from the fact that the reservation of that tribe of Indians was partially included in the geographical area of the county.

Cheyenne. Boundaries defined in 1873. Organized April 1st, 1886. County seat, Bird City. Named after the celebrated Indian tribe of that name.

Clay. Organized in 1866. County seat, Clay Center. Named in honor of the distinguished Kentucky statesman, Henry Clay, who was chosen United States Senator in 1806, and served most of the time during a period of forty-six years. He had been minister to England and France, and candidate for President in opposition to Polk. He lived in Washington in 1852.

Clark. Organized in 1885. County seat, Ashland. Originally and correctly Clarke, with a final *e*, in memory of Charles F. Clarke, Captain and Adjutant General, United States Volunteers, who died at Memphis, December 10, 1862. The Legislature of 1873 dropped the final *e* under a misapprehension, as the legend goes, that the county was named for another, and to many of them, an obnoxious individual, whose name was spelled with an *e*.

Cloud. Organized in 1860. County seat, Concordia. The name of Cloud county, Kansas, was originally Shirley county, named after Governor William Shirley, Colonial Governor of Massachusetts from 1741 to 1756. The name of Shirley county was changed to Cloud in the year 1867, in honor of Col. William F. Cloud, of the Second Regiment Kansas Volunteers. This change was made at the suggestion of Hon. J. B. Rupe, then representing the county in the Legislature.

Coffey. Organized in 1859. County seat, Burlington. Named in honor of Colonel A. M. Coffey, a member of the first Territorial Legislative Council. Colonel Coffey died at Dodge City in 1879.

Comanche. Organized in 1885. County seat, Coldwater. Named from the Indian tribe of that name.

Cowley. Organized in 1870. County seat, Winfield. Named in honor of Matthew Cowley, First Lieutenant of Company I, Ninth Kansas Cavalry, who died in the service, October 7, 1864, at Little Rock, Arkansas.

Crawford. Organized in 1867. County seat, Girard. This county was by an act of the Legislature of 1867 created out of the northern half of Cherokee, which prior to that date reached to Bourbon. It was named in honor of Samuel J. Crawford, who was Colonel of the Second Regiment Colored Volunteers, (infantry,) also Colonel of the Nineteenth Kansas Infantry, specially raised for the Indian war of 1868–9. He was elected Governor of Kansas in 1864, and served four years. The Legislature thus named the county in obedience to a resolution of its inhabitants, passed in a convention held to petition for its organization. Ex-Governor Crawford is now State Agent at the seat of government; his residence is Topeka.

He died in 1866.

Doniphan. Organized in 1885. County seat, Troy. In honor of Colonel A. W. Doniphan, of Missouri. He commanded a regiment of cavalry during the Mexican war, marching across the plains, and taking a very prominent part in the conquest of New Mexico. He was a zealous partisan in the effort made to extend slavery into Kansas.

Douglas. Organized in 1855. County seat, Lawrence. In honor of Stephen A. Douglass, United States Senator from Illinois, and a candidate for the presidency in 1860. It was in this county that the first Legislature located the capital of the Territory. As a Senator, Douglass, in 1854, took a leading part in securing the adoption of the "popular sovereignty" principle, in the act organizing Kansas Territory, which gave the particular form of the issue involved in the Kansas struggle.

Ford. Organized in 1873. County seat, Dodge City. Named in honor of Colonel James H. Ford, of the Second Colorado Cavalry, and Brevet Brigadier General U. S. Volunteers.

Franklin. Organized in 1855. County seat, Ottawa. Named in honor of the illustrious Benjamin Franklin.

Finney. Organized in 1854. County seat, Garden City. Originally Sequoyah, from the celebrated Cherokee Indian of that name, the inventor of the alphabet of his language, and a most remarkable man. Changed in 1883 to Finney, in honor of D. W. Finney, then Lieutenant Governor of the State.

Gray. Organized in 1887. County seat, Ingalls. Named in honor of Alfred Gray, late secretary of the State Board of Agriculture.

Greenwood. Organized in 1862. County seat, Eureka. This county received its name as a compliment to Alfred B. Greenwood, who, about the time of the organization of the Territory, was Commissioner of Indian Affairs. He negotiated treaties, on the part of the United States, with the Sac and Fox and other tribes in Southern Kansas.

The form of its organization was legal, and that is all, and in 1878 was decided to be an actual organization. It was named in memory of Marion Harper, first sergeant of Company E, Second Regiment of Kansas Cavalry. He was mortally wounded at Waldron, Arkansas, December 29, 1863, and died the following day. His comrades say he took his death coolly. Being a sportive man, when brought in wounded, he proposed a wager that in so many hours he would be dead; the bet was taken, and Marion Harper won.

Harvey. Organized in 1872. County seat, Newton. Named for James M. Harvey, Captain of Company G, Tenth Regiment of Kansas Infantry. He was Governor of the State from 1869 to 1873, and elected United States Senator to fill an unexpired term in 1877. Ex-Governor Harvey now resides in Virginia.

Haskell. Organized in 1887. County seat, Santa Fé. Named in honor of Dudley C. Haskell, of Lawrence, who died while serving the State as Congressman.

Hodgeman. Organized in 1879. County seat, Jetmore. Named in honor of Amos Hodgman, Captain of Company H, Seventh Kansas Cavalry. He died October 16, 1863, near Oxford, Mississippi, of wounds received in action at Wyatt, Mississippi, October 10, 1863. The name should be spelled Hodgman, as above, without the *e*—it was so, correctly, in the original statute of 1868, which created the county, but by accident—probably—in the statute which redefined its boundaries in 1873 the *e* was added. Of course it is legally Hodgeman, and must remain orthographically incorrect until changed by legislative enactment.

Jackson. Organized in 1857. County seat, Holton. Originally Calhoun, in honor of John C. Calhoun, of South Carolina; changed in 1859 to Jackson, after Andrew Jackson, seventh President of the United States.

Jefferson. Organized in 1855. County seat, Oskaloosa. In honor of Thomas Jefferson, third President of the United States—reputed author of the "Declaration of Independence." It came very near being called *Sauterelle*, (French for grasshopper,) Colonel Tibbs, the local member, having strenuously contended for it; he was overruled in the committee. The legend goes that the colonel accepted his defeat with good grace, and supplied the customary beverage of those times, used when anything notable occurred in or about that remarkable body.

Johnson. Organized in 1855. County seat, Olathe. For Rev. Thos. Johnson, a Methodist minister, who in 1829 established a mission among the Shawnee Indians, about eight miles southwest of Kansas City. Mr. Johnson took the Pro-Slavery side of politics and was a member of the first Territorial Council. He was, when the war came on, a faithful Union man. He then lived in Missouri, and becoming obnoxious to the bushwhackers, his house was attacked by them, and he was shot and killed in January, 1865.

Norton. Organized in 1872. County seat, Norton. In memory of Orloff Norton, Captain of Company L, Fifteenth Kansas Cavalry, killed by Guerrillas at Cane Hill, Arkansas, October 29, 1865. In 1873 the county was represented by one L. H. Billings, a man of overweening vanity, a crank on the subject of talking, who in consequence of his peculiarities became a sort of butt. A member of the Senate at the time—one of Kansas' brightest and wittiest of men—the same person in fact who named Shirley county, had the name of Norton changed to Billings, in two lines hidden in a paragraph of a bill materially affecting the interests of the county. The next Legislature restored the name of Norton.

Osage. Organized in 1859. County seat, Lyndon. A large portion of this county was originally named Weller, for John B. Weller, of Ohio, Member of Congress and Governor of that State; also Governor of California and Senator, Minister to Mexico, etc.—a staunch Democrat at all times. Shawnee. Organized in 1855. County seat, Topeka. Was carved out of what was, before the treaty of 1854, Shawnee Indian lands—hence the name. General H. J. Strickler, of Tecumseh, who was a member of the Council, and also of the joint committee on counties, claimed Shawnee for the name of his county, a preference stoutly contended for by the Rev. Thomas Johnson for the county in which the Legislature was sitting, but the committee yielded to Strickler, and without solicitation complimented Mr. Johnson by conferring his own name upon his county.

[1] Including merchandise, specie and bullion.

[2] Including New South Wales, New Zealand, Queensland, South Australia, Tasmania, Victoria and Western Australia.

[3] Foreign debt only.

[4] Spain being wholly unable to meet the interest on its debt, it was "converted," in 1881–2, from an aggregate of $2,560,000,000, into new securities to the amount of $1,290,000,000, at 4 per cent.

[5] The debt of Sweden is wholly offset by the value of the state railways, built by the government.

[6] The Turkish government, by arrangement with a committee of bondholders, "scaled" its public debt in 1881 from $1,264,009,425 to $532,186,170, pledging its revenues for payment.

[7] Venezuela's foreign debt, which had grown to over $54,000,000 in 1878, when interest payments were resumed, was "consolidated" into new 4 per cent. bonds in 1881.

SHORT METHOD FOR CALCULATING INTEREST.

Multiply the principal by as many hundredths as there are days, and—

For 4 per cent	Divide by 90
For 5 "	" 72
For 6 "	" 60
For 7 "	" $51\frac{3}{7}$
For 8 "	" 45
For 9 "	" 40
For 10 "	" 36
For 12 "	" 30

Example.—Interest on $50 for 30 days, at 4 per cent.: $50 \times 30 = 1{,}500$, which divided by $90 = 16\frac{2}{3}$ cents, which is the required result.

BUSINESS LAW IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

Ignorance of the law excuses no one.

The law compels no one to do impossibilities.

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sunday cannot be enforced.

A note made by a minor is void.

A contract made with a minor is void.

A contract made with a lunatic is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

It is a fraud to conceal a fraud.

Signatures made with a lead pencil are good in law.

A receipt for money is not always conclusive.

The acts of one partner bind all the rest.

"Value received" is usually written in a note, and should be, but is not necessary. If not written, it is presumed by law or may be supplied by proof.

The maker of an "accommodation" bill or note, (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder,) is not bound to the person accommodated, but is bound to all other parties precisely as if there was good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

Checks or drafts should be presented during business hours; but in this country, except in the case of banks, the time extends through the day or evening.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

If one who holds a check, as payee or otherwise, transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note endorsed in blank, (the name of the endorser only written,) is transferable by delivery, the same as if made payable to bearer.

EXPLANATION OF THE CALENDAR.

1. The days of the different months as given above fall in any year, on the week-day found opposite the century (Old or New Style) in which the year occurs, and over the year thereof.

2. Find the year in "Years of the Century;" follow up the column to the day on the same horizontal line with the given century. Find this day under the given month. The figures above it in the same vertical line show the dates of that day during the given month, and the week days in the same horizontal line to the right or left have their respective dates above them, thus forming the entire calendar for that month and year.

EXAMPLE 1. To find the day of the week for July 4th, 1881: Opposite Century 19, New Style, and over year 81, is *Saturday*. Under July, Saturday falls in the vertical line under 2, and the second day to the right following, under 4, is Monday, July 4th.

EXAMPLE 2. To find the day of the week on which Columbus discovered America, October 12th, 1492, Old Style: Opposite Century 15, Old Style, and over 92 in black letters (it being leap year) is *Monday*. Therefore October 8th was Monday; and the line of week days in which Monday falls under October (which is the sixth) with the days of the month above, constitute the entire Calendar for October, 1492, Old Style, and the 12th, as seen, falls on Friday.

We claim that our Flour contains a larger percentage of gluten than most winter-wheat Flour, as proven by chemical analysis. The larger the percentage of gluten, the more bread can be made from a given quantity of flour.

The following is one of numerous testimonials:

W. A. Thoms, of Alyth, Scotland, gives Topeka Flour quite a puff in an American milling paper. After saying they have better wheat and greater skill in making flour in Hungary than anywhere else, he adds—"The nearest flour to Hungarian I have seen from the United States, is this season's A. A. A. from Crosby Mill Company, Topeka, Kansas."

FACTS ABOUT

THE

Chicago, Kansas & Nebraska

RAILWAY.

(Rock Island Route.)

It is a favorite route with the traveling public, by reason of its liberal management and superior facilities.

It is a new line, extending to the best portions of Kansas and Nebraska, where the communities are enterprising, and offer every inducement to farmers, business men, artisans, clerks, professional men, school teachers, and all classes of industrious citizens.

The construction of 1,200 miles of new road last season by the Chicago, Kansas & Nebraska Railway Company inaugurated the great business revival and real estate activity in Kansas and Nebraska, and will cause a more remarkable growth and advancement this year throughout the entire West.

In connection with the Rock Island Route, the Chicago, Kansas & Nebraska Railway affords the best and most direct line from Chicago and the Mississippi River, or from the Eastern and Northern States, to St. Joseph, Kansas City, Topeka, Southern Nebraska, and all the principal points in Kansas, Colorado, Indian Territory and Texas, forming a great artery between the East and West.

The tourist or traveler will find the C. K. & N. to be one of the smoothest and best equipped roads in the United States, with so many conveniences and comforts that the question of fatigue need not enter into his calculations.

The C. K. & N. is operated in connection with the Chicago, Rock Island & Pacific Railway, the great Rock Island Route, making close connections at Chicago with the principal Eastern roads, and furnishing a direct line to Minneapolis, St. Paul and all points in Minnesota and Dakota, by the famous Albert Lea Route, and through its connections to St. Louis, and the East and South.

All the construction work of the Chicago, Kansas & Nebraska Railway has been of the best and most substantial character, a permanent contribution to the growth of the country. It has a solid road bed, steel rails, stone and iron bridges, and, as a finishing touch, has provided a magnificent new equipment of elegant day coaches, sleeping cars and reclining-chair cars, built to order, for the accommodation of its patrons. It has erected handsome and commodious depots along the route, and has recently built a large and elegant depot and general-office building in Topeka, giving every facility for business.

Tickets, Maps, Folders, or information about routes, rates, etc., can always be obtained of the principal ticket offices of the United States and Canada, or of local agents or general officers of the Company.

COTTAGE GROVE.

A NEW ADDITION TO THE CITY OF TOPEKA.

On Sixth avenue east of the city limits. The finest location for a home or an investment about the city. Four lots for $500 in four payments—only $125 cash. Every purchaser gets a corner. Each corner can be subdivided the other way and make more lots. Two corners purchased now, one can be made to pay for both before the last payment falls due. The Sixth avenue viaduct, the East Side Rapid Transit and City Railways will bring it within a few minutes ride of the business centers. The East Side motor line will run through this addition and be in operation this summer, and the prices of lots will then be double what they are now. Pure well water in abundance at from twenty to fifty feet. Lies high and nicely rolling, with good drainage. Overlooks the city, with a beautiful view that cannot be obstructed. All seeded to blue grass, and large shade trees are now planted on every street, corresponding in kind with the names of the streets as nearly as practicable. This will make the entire addition like a beautiful park, and a most desirable place to live. One-half of the corners are now for sale on the above terms.

FACTS ABOUT

THE

Chicago, Kansas & Nebraska

RAILWAY.

(Rock Island Route.)

It is a favorite route with the traveling public, by reason of its liberal management and superior facilities.

It is a new line, extending to the best portions of Kansas and Nebraska, where the communities are enterprising, and offer every inducement to farmers, business men, artisans, clerks, professional men, school teachers, and all classes of industrious citizens.

The construction of 1,200 miles of new road last season by the Chicago, Kansas & Nebraska Railway Company inaugurated the great business revival and real estate activity in Kansas and Nebraska, and will cause a more remarkable growth and advancement this year throughout the entire West.

In connection with the Rock Island Route, the Chicago, Kansas & Nebraska Railway affords the best and most direct line from Chicago and the Mississippi River, or from the Eastern and Northern States, to St. Joseph, Kansas City, Topeka, Southern Nebraska, and all the principal points in Kansas, Colorado, Indian Territory and Texas, forming a great artery between the East and West.

The tourist or traveler will find the C. K. & N. to be one of the smoothest and best equipped roads in the United States, with so many conveniences and comforts that the question of fatigue need not enter into his calculations.

The C. K. & N. is operated in connection with the Chicago, Rock Island & Pacific Railway, the great Rock Island Route, making close connections at Chicago with the principal Eastern roads, and furnishing a direct line to Minneapolis, St. Paul and all points in Minnesota and Dakota, by the famous Albert Lea Route, and through its connections to St. Louis, and the East and South.

All the construction work of the Chicago, Kansas & Nebraska Railway has been of the best and most substantial character, a permanent contribution to the growth of the country. It has a solid road bed, steel rails, stone and iron bridges, and, as a finishing touch, has provided a magnificent new equipment of elegant day coaches, sleeping cars and reclining-chair cars, built to order, for the accommodation of its patrons. It has erected handsome and commodious depots along the route, and has recently built a large and elegant depot and general-office building in Topeka, giving every facility for business.

Tickets, Maps, Folders, or information about routes, rates, etc., can always be obtained of the principal ticket offices of the United States and Canada, or of local agents or general officers of the Company.

Safety Deposit

VAULTS,

No. 109 West Sixth, Topeka, Kansas.

This Company desires to call the attention of the citizens of Topeka and vicinity to the new department that they have added to their business, viz.:

The Safe Deposit Department.

Safes of various sizes have been provided, and are now offered for rent by the month or year. Two large vaults—one fire proof, and one FIRE AND BURGLAR PROOF. The latter is devoted to our Safe Deposit Department. In this are placed commodious BURGLAR-PROOF safes, and within these safes are provided individual boxes, so that we offer the very best security. These boxes are provided with keys, or combination locks, according to size. The keys cannot be used until, with a "master key," the cover of the key-hole is removed. The possession of a key is not a sufficient credential to admit the possessor to the vault; he must be known to us to be the rightful person, so that a person losing a key will be protected. These boxes, as well as the burglar-proof safes and vault doors and linings, were made expressly for us by the Hall Safe and Lock Company, of Cincinnati, and are supposed to be the best in Kansas.

The Safe Deposit Department will be open from 9 o'clock a. m. until 5 o'clock p. m.

G. F. PARMELEE,
President.
